

About the Program

This program integrates all non-hospital and/or practice specific orientation content as defined in the AMC Orientation Guidelines (2007) and will assist with the initial 3 month supervisor/employer reporting requirement to the Australian Health Practitioners Regulation Agency (AHPRA) / Medical Board of Australia (MBA)

The introduction of a coordinated and centrally delivered IMG orientation program has demonstrated both a practical and integrated approach to implementation of the AMC/AHPRA reporting guidelines and a decrease in duplication of effort by employers and supervisors in relation to IMG orientation, since the program inception in 2009.

- The program is open to International Medical Graduates employed or about to commence employment across the Australian health system (hospital and general practice).

Participants

- Each participant and their nominated supervisor will receive a certificate of attendance and an overview of the orientation content covered to assist with required reporting to AHPRA.

SAMPLE CHECKLIST

Certification

- A fee of \$400 per participant to cover the cost of delivering the program is inclusive of facilitated sessions, materials and workbooks and venue and catering.
